THE PEOPLE OF THE UNITED STATES ARE IN Iterested in the establishment of an industrial palace in the city of New York which shall be larger and more magnificent than any of its prodecessors.

The Legislature of New York has granted a charter incorporating the Industrial Exhibition Company. This corporation proposes to erect a suitable building to be used as a perpetual palace of industry. It is intended to have the building ready in time to receive the goods which will be axhibited in the Centennial at Philadelphia. By so doing this project becomes an aid to the Centennial, as those who propose to exmitted to the Centennial as the content of the provided in the World's Fair at Philadelphia will be justified in incurring a greater expense, knowing that on the clode in the World's Fair at Philadelphia will be justified in incurring a greater expense, knowing that on the other parishments of the World's Fair at Philadelphia content them on exhibition, and also sell by the first industrial palace of New York is destined to become the industrial palace of New York is destined to become for industry, are especially interested in this enterprise, for the years of the world to visit New York, not once, but annually, for business and for pleasure, that, but for the palace of industry, would remain at houre or visit other cities. This inflax of strangers, would leave annually millions of dollars which would be distributed among the citizens of New York. One of the great necessities of New York is Rapid Transitr.

of New York is

RAPID TRANSIT.

Nothing will give capital more confidence that a rapid transit reliway will pay than the building of a ryratal palace. The strangers desiring to visit such an institution would alone make sufficient business to justify the building of a railway from the Battery to the larlem River. Bival cities to New York are making sarnest and visorus attempts to carry away force.

Harlem River. Rival cities to New York are making earnest and vigorous attempts to carry away the trade of New York, and such attempts are partially successful. The people of New York, if they would retain their position as the commercial metropolis of the United States, must aid such enterprises as are destined, when completed, to attract strangers and business to New York.

No one enterprise will tend more to accomplish this than the building of such a Palace of Industry as is proposed.

VIDI.

MANY years ago it occurred to Mr. JOHNSTON that there was no good reason why a straightforward business could not be done in selling Horses and Carriages at auction just as Real Estate. Dry Goods and other Merchandise are sold. He was told by old auctioneers that it was impossible. That the public would not give sufficient patrouage to sustain such a business. That it was useless to try togain public confidence. &c.

With a firm determination, however, to deserve success and an abiding confidence in the result Mr. JOHNSTON commenced, and his unprecedenced success has proved the correctness of his judgment.

The second year found the business in the full tide of successful experiment, and growing steadily ever since. The "Auction House of Arch Johnston" is now one of the features of the metropolis. It has long since achieved a world wide jame, and its growth in public tavor knows no diminution.

Two vears since Mr. JOHNSTON'S lease having ex-

Dow one of the features of the metropolia, it has long since achieved a work wide fame, and its growth in public favor knows no diminution.

Two years since Mr. JOHNSTON'S lease having expired, the business was removed to the present spacious premises 12 21, B and 25 Thirteenth street, near University place, the most central location in the United States.

Heartily Mr. JOHNSTON thanks the Public, and he will continue to strive to deserve the confidence and patronage heretofore so liberally bestowed.
